Transport Canada Certifies FlyRight's King Air B200 Simulator Simulator may be used for Training Canadian Pilots

FlyRight Inc. recently received Transport Canada Level-C certification of its King Air B200 full flight simulator.

"We are very happy with this approval – it opens the doors to a new, simulator-based, training alternative for Canadian King Air pilots." said FlyRight VP of Training, Tom Leahy. Level-C approval will allow operators to do 100% of both initial and recurrent training in the full-motion simulator. The link (below) provides Canadian operators with direct information regarding Transport Canada's approval:

About FlyRight

FlyRight is an FAA-approved 142 Training Center. Founded in 2003, FlyRight provides professional, simulator-based flight training to FAA part 91 and certificated operators. With a focus on quality and safety, its management team has over 30 years of corporate and commercial training experience. Based at the Concord Regional Airport, FlyRight's 10,000 square foot training center is conveniently located in the heart of one of the fastest growing areas in the United States. Centrally located on the east coast, FlyRight is just 20 minutes from Charlotte-Douglas Airport (the 10th busiest airport in the country, served by AirTran, American Airlines, Continental Airlines, Delta, JetBlue, Midwest Airlines, Northwest Airlines, United Airlines, and USAir).
